Objective:
Securing a Front End Web Development position.

Живу в России, гражданство РФ, родной язык русский. Свободно владею английским и арабским языками, хорошо знаю французский.

I am a Front-End Developer based in Saratov, Russia, with experience in building websites and web applications. I specialize in HTML, CSS, JavaScript (ES6+) and React.

I am genuinely interested in my profession and enjoy creating demanding projects that push me to improve myself. I excel at finding creative solutions to technical challenges while designing sleek and visually appealing web applications by following best-practices and industry standards.

I am a quick learner and my free time is spent investing in my knowledge through courses, working on personal projects, programming literature and practice.

My former experience in sales and management, and knowledge of many languages (English, Russian, Arabic, French) make me a good team player and a great communicator.
